

RRI-18T Torque Limited Impact wrenches

NEW!

Red Rooster Professional Airtools

The Red Rooster Impact wrench RRI-18T with Torque limitation has full power output in untightening. During tightening however, the torque is limited to 100 Nm. This ensures that the wheelnuts are not OVER tightened. Always use the torque wrench to check the torque!

Lightweight composite impact wrench

Features RRI-18T

- Maximum Tightening Torque: 100 Nm
- Full power in untightening
- Composite motor housing
- Lightweight
- Handle exhaust
- Low noise
- Twin Hammer mechanism
- Rotating air inlet
- Patented One Hand Operation (forward / reverse)

Patented One Hand Operation!

Twin-hammer mechanism:

- fast loosening and tightening
- long lifetime
- higher torque
- lower weight
- forged hammer mechanism (not cast iron)
